# Things to consider when producing plans?

- What status will the plan have?
- What are the timescales?
- Commitment?
- Skills available?
- Sources of help?
- Funding?
- Alternatives?

# ***Neighbourhood Planning is not just Neighbourhood Plans!***

- *There are other, less time- and resource-intensive approaches*
- *Some can actually be far more appropriate:*
  - *Community Design/Landscape Statements*
  - *Concept Statements/Development Briefs*
- *Community Plans still have a key place together with engagement in plan-making*

# On-Going Engagement

- Seek to influence emerging Gloucester, Cheltenham and Tewkesbury Joint Core Strategy
- Seek to influence emerging Cheltenham Plan
- Be involved in pre-application discussions
- Comment on planning applications
- Influence any design and development briefs

# Sources of help

- Cheltenham Borough Council's Development management team and Strategy and Engagement Teams
- Communities and Local Government
- Gloucestershire Rural Communities Council
- Planning Aid
- Prince's Foundation for Building Community,
- Campaign to Protect Rural England, working with the National Association of Local Councils
- Locality
- Forum for Neighbourhood Planning

# Thank you
